

BARCELONA GIN

A new and unique gin experience for the true connoisseurs and all those who can appreciate the very best of what a Mediterranean gin has to offer.

Prior Barcelona Dry Gin
Distilled in Priorat - Savoured in Barcelona

In the 12th century, the Carthusian monks settled in the Priorat, newly reconquered from the Moors. This mountainous region offers a vibrant and impressive landscape: a grand and mystical theatre where red rock, deep creeks, lush vegetation, dark slate and bright green vineyards set the stage.

The Priorat is famous for its complex and powerful wines, product of the region's slate soil and ample sunlight. Here, wines have to give their best if they want to survive.

The very essence, the fifth-essence, of the Cariñena and Grenache grapes is extracted by our magnificent copper four-plate Arnold Holstein distillation column. This is only done with time, effort, craftsmanship, and utmost respect from the wine lees of the top DOQ Priorat and DO Montsant wines we work with. Anything less will not do.

100% Natural

Cool and limpid, the water we use comes strictly from our well Font del Mas Petit. This pure water, high in mineral content, is perfect for the full expression of the botanicals found in our gin.

These botanicals, all local, include:

Juniper berries, rosemary, fennel, pine shoots, and especially figs.

We then combine these botanicals from the remote mountains of the Priorat with lemon peels from South-Catalonia to produce an exquisite coastline mountain-range Mediterranean gin.

Distilled in Priorat - Savoured in Barcelona

BCN GIN

Gin distilled in the quiet mountains of the Priorat and savoured in roaring Barcelona.

Between tradition and modernity lie the roots of the spirit that transformed Barcelona in the capital of a new lifestyle. BCN GIN bridges mountain and sea, nature and urbanity, tradition and modernismo.

With sparkling tonic, the bridge is complete: the common sense of Catalan rural life meets the Dionysian effervescence of Barcelona.

In 1916, Escofet Tejera & Co. was chosen by the council of Barcelona to pave the sidewalks of the city. Since then, all who walk in Barcelona immediately recognise the typical BCN sidewalk motifs, symbol of the city.

BCN  GiN

The elixir of mountain Priorat grapes.
The purity of fresh cut Mediterranean botanicals.
BCN Gin. An original toast to the unique intensity
of Barcelonese night life. Salut!
